Are the Democrats of Pennsylvania ready to submit to the Threatened Conspiracy against Democratic Principles, headed

lu Simon Cameron. The silence with which the enemies of the organization and doctrines of the Democratic party are conducting their sinister operations, is by uo means an evidence that they are not actively and industriously at work. On the other hand, the indifference with which their machinations are contemplated by the press and the people of Pennsylvania results no ther from a disregard of the interests of the State nor frem a disposition to underrate the power of the worst focs which these interests can have. This apparent indifference grows out of the fact alone that the purposes of these wicked and ambitious men have been tudiously concealed from the public-eve. Recent went, however, have disclosed the whole conspiray, so broadly and so plainly that we conceive it o be our duty to speak in the most fearless fran-tness of the object which that conspiracy is intended to achieve. We venture to assert that the listory of politics contains few instances showing i more extended and prefligate combination

against imper shable principles and incorruptible The startling intelligence which has been made known within a few days past that that ong-established and sterling Democratic journal, he Harrisburg Union, had passed into the hands. and had been purchased and paid for, by an agent and friend of S mon Comeron, is the first symptom

if the whole scheme of trand and disorganization. TThe letter of Secretary Marcy to Ma That unscrupulous and daring political game-ter has for years been the owner of Harrisburg keystone, which from once being an honest adocate of Democratic principles, long ago degenerated into his most abject month piece, and into the constant echo and author of the worst assaults upon the organization and the champious of the Democratic party. So that the Democratic party of Pennsylvania in without a press at the capital orthodox representative in the discharge of their

Books and Stationery, for Cash only.

THE amount of goods in our line purchased by country merchants is usually quite small compared with their Dry Goods, Hardware and other bills; and this very circumstance absolutely compels jobbers in the book business, who sell on time, to get larger profits in order to make up for the losses and extra expenses necessarily involved in a credit business of small amounts. It is also easy for the merchant to make arrangements to buy his book bill for eash, though it may not be so convenient for him to purchase his larger bills in this way.

These considerations have led us to adopt in our business, from this date, January, 1854, the following principles, viz: small profits, unvarying prices, and terms always cash.
